

Chris

Wilson

In real estate results matter. Years spent in significant administration and managerial roles have prepared Chris well for this industry. Strong people skills and sales and marketing experience gained in hospitality are her best asset. She appreciates the importance of working hard for her client, the value in communicating effectively and perhaps most of all in delivering great results.

She is a long term Cantabrian with local knowledge and has an appreciation of the benefits of different suburbs throughout Christchurch. Over the years Chris has owned several homes in Christchurch and also a 30 acre lifestyle block in Loburn. She understands the differing requirements her clients may have of a home as they progress through life. She is always happy to go the extra mile to assist her clients achieve a less stressful property transaction.

Chris enjoys all forms of cricket, and stubbornly maintains a faith in the Black Caps, convinced that they will again shine through, never say never! She loves live theatre, socializing with friends, she works at gardening and of course needs to walk the dogs each day.

Contact Chris for the service you deserve, whether buying or selling your home and you will receive the backing of the Harcourts network.
